I also defer to the Chief's Report in regards to anything in my portion of my budget. I would like to have a moment of silence for the two people killed yesterday in an accident with Lawnside Fire Apparatus. Two Firefighters were injured, and I think it's important we talk about the safety of driving the vehicles, because they do kill. That's all I want to say. That's all I have.

I'll take the responsibility to do that and get that out to him. He came here as a special favor to us, so I didn't want to bring that up.

**Resolution R-02-22** The 2022 Adopted Budget Resolution for total revenues of \$2,315,447.99 which includes the amount to be raised by taxation of \$1,648,645.04, for total appropriations of \$2,315,447.99.

Motion made by Comm. Funkhouser, seconded by Comm. Robinson to adopt the 2022 Fire District Budget.

Roll call vote, all yes.

**Resolution R-03-22** Closed Session

**Old Business – George Brown**

1) Computer Room project.

**Comm. Brown:** It still has not been started, I looked at it when I was here yesterday.

2) What to do with Support Vehicle 869

**Comm. Brown:** Is there maintenance on that from a prior meeting.

**Chief Brezee:** I had asked whether we wanted to have it repaired or not, at the time I was told no.

**Comm. Brown:** So that's closed? We can take that off the Old Business list.

**Cl.Crockett:** OK.

**Old Business – continued**

3) Apparatus boom leaking – update

**Comm. Brown:** We never got any documents from them?

**Chief Brezee:** Yeah I did. What I requested from them was all the past repair invoices. They gave them to me in paper copy, I made copies for Carlamere. I read in the November minutes he wanted to see that.

**Comm. Brown:** Yes, but are there things in there that he doesn't need to look at?

**Chief Brezee:** I was looking at...this is an awful big stack for a truck that's 4-5 years old.

**Comm. Brown:** OK, but he may not know that. I think we'd do better when we send him the things we need for him to specifically look at.

**Chief Brezee:** Yeah, whatever he wants from me, I'll go through it, that's not a problem. I've been through it several time.

**Comm. Brown:** Are there any references in those documents for boom repair or maintenance?

**Chief Brezee:** I'll go back over them to be sure. There was a boom light, hydraulic issue...

**Comm. Brown:** If you could go back through there and highlight that has anything to do with the boom, I think that's the starting spot if you could do that within the next two weeks?

**Chief Brezee:** OK.

**Comm. Brown:** Thank you.

4) Roof update

**Comm. Funkhouser:** Nothing right now. I was waiting for the budget to go through, so around February.

**Comm. Grier:** Have we authorized the RFP?

**Comm. Brown:** I there are a whole bunch of steps that need to be done there and we should backtrack and look at that. I don't know all of them on top of my head. The RFP would normally, I think as we've been talking prior to you joining the Board is, the first decision is whether or not we're going to hire that Consulting Engineer to run the project in my mind, because he's the person who would do the RFP. And we may need to do an RFP just to get that person lined up. There are all kinds of squirrely things in that part of the world, because we haven't really issued an RFP, am I correct Chief, on a Consulting Engineer. We just went out and knocked on doors and said...

**Chief Brezee:** I believe I forwarded two quotes, one from an Engineering firm that when you went through it, it pretty much handled the whole project. Then we got another quote from a company that they kind of guide you through it, but you do all the work.

**Comm. Brown:** So I think the first step is to decided which way you're going to go. I think if you look back in the minutes, it was that we wanted to pass off all to a project manager, because there is so much involved.

**Comm. Robinson:** I believe that's the avenue to go.

**Comm. Funkhouser:** A Consulting Engineer would be great.

**Comm. Brown:** OK, so I guess the starting point would be to ask the Consulting Engineer if he wants to update his quotes since it's been a year, and if so, when can we have that? And I don't know, depending on that amount, you may have to get other ones.

**Comm. Funkhouser:** It's going to be \$800,000 now.

**Comm. Brown:** I warned you.

5) EMS Mutual Aid

**Comm. Brown:** Is this resolved?

**Chief Brezee:** The Township has moved into a new contract with Inspira, which we all pretty much have seen. This is a temporary fix until they can get a 5 year contract with a company, I don't want to say that Inspira got it already. But yes, right now they are operating their own EMS, I would say it's better than it was.

**Comm. Brown:** OK, I don't know who told me this, but somebody official told me that they have to go through the 120 day waiting period with AMR. So I'm guessing they can't sign the new contract until the 120 day period is cleared, that's my unofficial, untrained, stayed at a Holiday Inn last night opinion on it.

**Comm. Grier:** Did we get any personnel involved in that financially?

**Chief Brezee:** No. We had guys scheduled but the temporary fix was put into place before they were used.

6) Call Back Program.

**Comm. Brown:** The last item is the Call Back Program. I think it's been batted around here and we're in the new year and new budget. The steps are, we were going to get some language and sit down with Adam and say this is what we'd like to do relative to the Call Back Program, can we get that resolved maybe by the February meeting?

**Old Business – continued**

**Chief Brezee:** Do you want me to do that?

**Comm. Brown:** I think Comm. Robinson and you I think should do it.

**Comm. Robinson:** Have you been able to get anything Adam, any kind of how anybody else has it written, the Call Back Program?

**Ff. Craig:** No.

**Comm. Robinson:** Me neither.

**Comm. Brown:** OK, and I don't want to make it much bigger than it is. I think in my mind which is fading, but there were a couple things we wanted to add to the current overtime rules relative to Call Back and it was good to go. And if you want me to try and recall that and just have conversation, I could do that.

**Chief Brezee:** You can send it to me so I know where we're at.

**Comm. Brown:** Let's just have a conversation, because I speak a lot faster than I type, alright? Maybe you and I, Comm. Robinson, and I would even ask Adam to join into the conversation and start with "what are we trying to achieve here", and let the language follow that rather than getting out there with the language and it doesn't go where we want to be. Adam?

**Ff. Craig:** OK.

**Comm. Brown:** Can you maybe within the next couple tours let me know when you're here or let Comm. Robinson know and I'll come up and tell you what I remember from context what we were trying to do and what we did want to happen. I think this is the bigger thing. There wasn't enough control over what had been in place before when we took it out.

**Ff. Craig:** OK, no problem.

**Comm. Brown:** We'll have to amend the contract too. If we get the language by next month and get the contract amended right after that as quick as we can. That's all I have.

**New Business – George Brown**

**Comm. Brown:** (hearing none)

**Closed Session – George Brown**

(earlier Closed Session **R-03-22**)

**Public Portion – George Brown**

**Comm. Brown:** Anyone like to say anything to the Board, stand up, state your name and address.  
(hearing none)

**Adjourn – George Brown**

Motion made by Comm. Robinson, seconded by Comm. Funkhouser to adjourn the meeting at 7:34pm.  
Roll call vote, all yes.
